PROFESSIONAL PROFILE

Senior Full-Stack Product Engineer with 15 years of experience designing, building, and delivering production software products, SaaS platforms, and customer-facing applications. Experienced in owning engineering initiatives from initial requirements and architecture decisions through development, deployment, and continuous improvement.

Strong expertise across frontend, backend, and cloud systems, including TypeScript, React, Next.js, Node.js, Python, PostgreSQL, and AWS. Skilled in designing scalable APIs, modern web applications, integrations, and reliable software platforms.

Experienced collaborating with product teams, clients, designers, and engineers in distributed environments to transform complex business requirements into simple, maintainable, and high-quality software solutions.

Open to **Senior Software Engineer, Technical Lead, or Staff Engineer** roles.

CORE TECHNICAL EXPERTISE

Frontend

React, Next.js, TypeScript, JavaScript, HTML5, CSS3, responsive design, component architecture, state management

Backend

Node.js, NestJS, Python, Django, PHP, REST APIs, microservices, authentication, webhooks, background processing

Databases

PostgreSQL, MySQL, MongoDB — schema design, indexing, query optimization, migrations

Cloud & DevOps

AWS (EC2, S3, RDS, Lambda, API Gateway), Docker, CI/CD pipelines, Git, Linux

E-commerce & CMS

Shopify, Liquid, WordPress

Practices

System design, code review, testing, performance optimization, debugging, Agile/Scrum, mentoring, technical documentation

PROFESSIONAL EXPERIENCE

Senior Software Engineer

Sayee Digital Agency UK | United Kingdom | Remote | Aug 2023 – Present

- Designed and delivered production-grade web applications using **React**, **Next.js**, **Node.js**, and **TypeScript**, owning architecture decisions, feature development, and improvements across the application lifecycle.

- Architected and implemented backend services and APIs using **Node.js**, **PostgreSQL**, and **REST APIs**.
- Developed cloud-based application infrastructure using **AWS**, **Docker**, and **CI/CD pipelines**.
- Owned features from requirements analysis through implementation, testing, deployment, and production improvements.
- Collaborated with clients, designers, and engineering teams to deliver reliable software solutions.

Senior Software Engineer

ScienceSoft | United States | Remote | May 2020 – Jul 2023

- Developed enterprise applications using **Node.js**, **React**, **Python**, and modern web technologies.
- Designed scalable backend services using **REST APIs**, **MongoDB**, **PostgreSQL**, and **microservices architecture**.
- Integrated third-party platforms and external APIs.
- Participated in architecture decisions, code reviews, and technical improvements.
- Worked with product teams and stakeholders in Agile environments.

Technical Lead

Digital Thing Australia | Remote | Jul 2017 – Apr 2020

- Led development of web products combining technical architecture and business requirements.
- Designed cloud-based solutions using **AWS**.
- Built responsive frontend applications using **React** and **JavaScript**.
- Developed backend services and APIs supporting business workflows.
- Guided engineering decisions and collaborated with stakeholders.

Full Stack Engineer

Thoughtworks Singapore | Singapore | Onsite | Mar 2013 – Jun 2017

- Built full-stack applications using **JavaScript**, **Python**, frontend frameworks, backend services, and databases.
- Developed frontend and backend features using **React**, **Node.js**, **Python**, and **REST APIs**.
- Designed database solutions using **PostgreSQL** and **MySQL**.
- Supported modernization efforts and improved legacy systems.
- Worked in Agile Scrum teams delivering software improvements.

Software Engineer Intern

IBM | United States | Remote | Jul 2011 – Feb 2013

- Developed applications using **JavaScript** and **Python**.
- Assisted with **REST API** development and backend engineering practices.

- Participated in testing, debugging, and quality improvement.
- Used **Git** for version control and collaboration.
- Supported engineering teams with software development tasks.

EDUCATION

Bachelor's Degree in Computer Science_National University of Singapore | Singapore ____Aug 2007 – May 2011
